¹ Stallions will be given a second time if being seen under saddle as well as in-hand/loose (including loose jumping)

² The SPSS Rules can be downloaded from the website - www.sportpony.org.uk/info.shtml#Rules

IMPORTANT NOTES

Equine Influenza Vaccinations. Up to date and complete vaccinations for Equine Influenza (that comply with the following conditions) may be necessary for all stallions attending "in person" (and any equines travelling with them) if required by Futurity and/or the venue. The mandatory conditions are:

- Two injections for primary vaccination, not less than 21 days and not more than 92 days apart, are required;
- A first booster injection must be given within seven months after the second injection of primary vaccination;
- Subsequent booster injections must be given at intervals of not more than one year, commencing after the first booster injection;
- The most recent booster injection must have been given within the six calendar months prior to the horse arriving at the event but not within the 7 days immediately before the event.

The Record of Vaccination(s) in the stallion's passport must have been completed by a veterinary surgeon and signed & stamped line by line. Passports must be presented to the SPSS before unloading.

Membership. Only members can enter a pony for grading. If you are not a member then you will need to join (or rejoin if a lapsed member). Membership forms can be found on our website www.sportpony.org.uk "Membership" page.

Withdrawals. Withdrawals before the closing date will have their entry fee either refunded or the entry can be carried forward to another date/venue (including in another year). Withdrawals after the closing date will only be refunded if the place can be filled from the waiting list but the entry can be carried forward once to another date/venue (including in another year). Note that any registration (overstamping) and membership fees paid will neither be refunded nor carried forward.

DNA Testing. Any stallion that is successful in the grading will need to be DNA profiled at the owner's expense (cost £55) or provide evidence of an existing profile to complete the grading process.

Veterinary requirements. In order to complete the grading process successful stallions will **also** be required to provide a recent veterinary certificate that includes freedom from hereditary disease/defect.

Height. The height limit for SPSS grading is 158cm & stallions on or close to the height limit will be required to provide proof of height at maturity as a prerequisite for permanent graded status. Should a stallion prove to be over the height limit at any time after grading then SPSS graded status will be withdrawn and the entry and other fees will not be refunded.

Annual requirements. Stallions wishing to issue SPSS covering certificates and be promoted by the SPSS (on the website & display boards) during the year have to pay a £50 annual covering fee (and have completed all post grading/acceptance requirements). One free covering /insemination book is included in the registration fee. Further books may be purchased from the Head Office throughout the year if required.

Ridden requirements. Note: 2 year old stallions are not ridden; 3 year old stallions may be ridden if they are ready but those that aren't are not disadvantaged; we expect 4 year old stallions will be ridden, but the judges will take into account how long they've been backed when assessing them; we expect older stallions to be ridden. We will consider exceptions on a case by case basis. Exceptions will normally only be made when an older stallion has proven progeny.

More information. There is more information including a downloadable information sheet on our website.

Entry Fee: **£250** for stallions with SPSS passports or already registered/overstamped by the SPSS
£300 for all others (this includes the necessary non-refundable £50 initial registration fee)
There is no further fee for eAssessed Stallions (as it was paid to enter eAssessment)
