Entries close 1 week before the event date

We hope to be able to add more dates/venues for Mare Grading (keep an eye on our website and/or social media for additional dates) where we are able to work with AES and/or others to share resources but, at the moment, we don't anticipate any other dates/venues for Stallions. Virtual Mare Grading (by video) will also be available from 1st July for those unable to get to an “in-person” event.

All events will be subject to & fully compliant with all COVID restrictions in place at the time plus any venue or Futurity requirements (eg equine flu vaccinations and/or equine health declarations).

Early entry is advised as spaces will be allocated in order of receipt of entries and once capacity is reached at each venue further entries will be placed on a waiting list. If there is space, late entries may be taken, please call the office on 07703 566066 to check. Late entry supplement £10 per pony for grading entries.

Withdrawals before the closing date will have their entry fee either refunded or the entry can be carried forward to another date/venue (including in another year). Withdrawals after the closing date will only be refunded if the place can be filled from the waiting list but the entry can be carried forward once to another date/venue (including in another year). Note that any registration (overstamping) and membership fees paid will neither be refunded nor carried forward.

Flu Vaccination Requirements (for in-person gradings only)

No mare may take part in an in-person SPSS Mare Grading unless she abides by the Futurity/venue's rules which we anticipate will be that she has a current vaccination against Equine Influenza which complies with the following conditions:

- Two injections for primary vaccination, not less than 21 days and not more than 92 days apart, are required;
- A first booster injection must be given within seven months after the second injection of primary vaccination;
- Subsequent booster injections must be given at intervals of not more than one year, commencing after the first booster injection;

The Record of Vaccination(s) in the mare's passport must be completed by an appropriate veterinary surgeon, signed and stamped line by line in accordance with the FEI rules including a vaccination within 6 months (but more than one week) before the grading.

Eligibility & Requirements

We accept entries to our grading for any breed of mare provided they are no more (and don't mature above) 158cm and are at least 2.5 years old. Mares on or close to the height limit may have to provide confirmation of height (from a vet) and young mares with horse breeding that look like they may mature over height may have formal confirmation of their grading deferred, so it may be better to leave bringing them until they are older and their mature height is clearer – please contact us to discuss if you are in any doubt. With all sizes of pony/horse, as well as assessing the conformation, paces and temperament, the judges also look at suitability as a dam of sports ponies and the pass mark is 65%. Which Studbook a successful mare is placed in depends on how complete her pedigree is and her score. More information about the SPSS Mare Studbooks can be found in our Rules (www.sportpony.org.uk/docs/SPSSRules.pdf).

If she is accepted at our grading, then the SPSS will issue passports to her progeny, including any foal at foot (whether or not the sire is SPSS graded). However, please note that the SPSS does not issue passports to any foals that are eligible for registration as a pure-bred pony with any Mountain and Moorland (indigenous pony breed) studbook listed with DEFRA. Other than this, the SPSS will issue passports to any progeny of an SPSS graded/licensed mare (including part-bred Mountain & Moorland) and pure-bred Mountain & Moorland progeny can be overstamped by the SPSS once passported by their native breed society.

Assessment Process -In-person Grading

At the in –person grading, each mare is assessed in hand for confirmation then in hand and loose for paces. Mares are not normally seen loose jumping or under saddle. Mares are NOT disadvantaged by not doing these stages. For mares with a foal at foot, if the owner is concerned that letting the mare loose may risk the safety of the foal, then that stage too may be omitted – however, it does limit the mare's opportunity to show her paces. For more information on aspects such as turnout and presentation, please see our website "Information & FAQ" page - www.sportpony.org.uk/info.shtml

Video assessments

The video footage needs to be sufficient for the judges to assess conformation and paces. Your mare will not be assessed on the quality of the video footage or your editing skills, so keep it simple, and don't worry, videos taken on a smart phone or tablet are perfectly suitable for this. Equally, you can use any type of arena or other surface you have available. If you don't have an arena, a straight bit of paddock is absolutely fine, as long as the grass is nice and short. Please contact us for more information about what videos are required. Loose jumping MUST NOT be included.
